Pipe / Rod Grapple with *HPXdrive*

Special and Custom Solutions

178635/2008

Pipe / Rod Grapple with *HPXdrive*

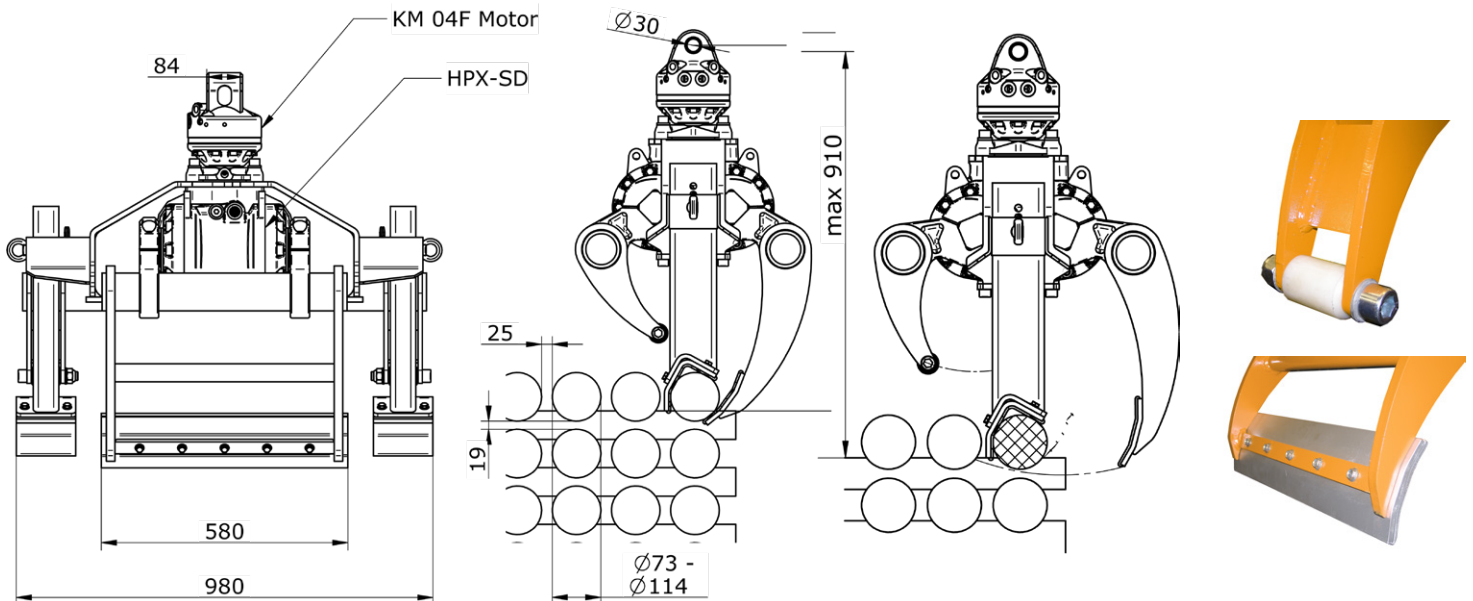

The pipe grapple combines the advantages of the **KINSHOFER** manipulators with the revolutionary, patented HPXdrive. Smooth grabbing and safe lifting are guaranteed due to the special kinematics of the grapple and the non-slip Vulkollan-overlay on all gripping parts.

ADVANTAGES:

- ▷ fivefold height shift of central compression jaw makes smooth grabbing of different diameter pipes possible
- ▷ rods laying at close quarters of up to 25 mm / 1 in can be grabbed and lifted easily without damage
- ▷ load is clamped securely thanks to the second outer arm
- ▷ form-closed gripping of tubes achieved, even when charge is oil glazed
- ▷ safe retention of loads due to integrated non-return valve
- ▷ compression rails are exchangeable fast and easy

TECHNICAL DATA:

Operating pressure: 26 MPa (260 bar) / 3,770 psi
Load capacity: 500 kg / 1,100 lbs
Gripping range Ø: 73 - 144 mm / 2.9 - 5.7 in
Weight: 286 kg / 629 lbs
